

Stop Mosquitoes from Breeding In Your Backyard

These things make a perfect place for mosquitoes to breed.

1

Pool covers that collect water, neglected pools or child's wading pools

2

Tree holes, hollow stumps or rain puddles

3

Trash and old tires

4

Flat roof with standing water

10

Missing, damaged or improperly installed screens

6

Leaky faucets and pet bowls

7

Toys, garden equipment, or containers that can hold water

8

Uncovered boats or boat covers that collect water

9

Clogged rain gutters

5

Birdbaths and garden ponds
