Medina County Health Department Remains Open for New Patients Amid MetroHealth Closure

September 5, 2025. Medina, OH – In light of recent news regarding the closure of the MetroHealth location in Medina this October, the Medina County Health Department wants to assure the community that we are fully operational and accepting new patients at both of our Health Center locations, Medina and Wadsworth.

As a vital healthcare resource in our community, the Health Center at the Medina County Health Department continues to provide both medical and dental care services. Our team of physicians, dentists, nurses, and dental hygienists is committed to providing quality care to all Medina County residents, with or without insurance. We can be your healthcare home as we offer primary care, health screenings, physicals, and chronic disease management. Our dental department provides exams, cleanings, x-rays, fillings, and more. A full list of our services can be found at medinahealth.org/healthcenter.

“We understand that the closure of healthcare facilities in our neighborhoods can raise concerns within the community,” said Krista Wasowski, Health Commissioner for Medina County. “We want to reassure our residents that the Medina County Health Department is here to support them and provide the care they need.”

All residents are encouraged to reach out to the Health Center at the Medina County Health Department to schedule an appointment. A variety of payment options exist; private insurances, Medicare, and Medicaid are all accepted. For uninsured patients, payment options are available through our sliding fee discount program. Call us at 330-723-9688, option 1 for any questions or to schedule an appointment.

About Medina County Health Department

The Medina County Health Department has protected your health since 1918. Its mission is to prevent disease, assure a healthful environment, prolong life, and promote well-being for the citizens of Medina County.
