

## Weekly Influenza Activity Report

MMWR Week 40 (10/2/22-10/8/22)

Date Completed: 10/16/22

### Summary:

Public health surveillance data indicates levels of influenza like illness (ILI) is above the statewide average and the historical average for emergency department (ED) visits (Figure 1). ILI ED visits are found in most of the county’s zip codes (Figure 2). The highest frequency of ILI ED visits are among those less than 25 years of age (Figure 4). There are 0 influenza-associated hospitalizations which is similar to the historical average (Figure 3). There were 0 novel influenza infections reported during the week.

### Dashboard:

Indicator	Current Week	Previous Week	Trend (# of weeks)	Season to Date
Number of ILI ED visits <sup>1</sup>	33			33
Percentage of ILI ED visits <sup>1</sup>	2.4%			-
Number of Influenza Hospitalizations <sup>2</sup>	0			0
Number of Novel Influenza Infections <sup>2</sup>	0			0
Number of Over-the-Counter <sup>3</sup> Medication Sales (Adult)*	1,938			1,938
Number of Over-the-Counter <sup>3</sup> Medication Sales (Children)*	148			148
Number of Influenza Deaths	0			0
Number of Pneumonia Deaths	0			0

*\*Over-the-counter (OTC) medication sales do not reflect all OTC medication sales within the county. Please see Figures 5 and 6 for specific medications that are being tracked and monitored. All numbers are preliminary and subject to change.\**

## Number of OTC Medication Sales for Adults Sold in Medina County Drug Stores:

## Number of OTC Medication Sales for Children Sold in Medina County Drug Stores:

## State, Regional, and National Data:

### Ohio Surveillance Data:

- Data from the U.S. World Health Organization (WHO) Collaborating Laboratories System and the National Respiratory and Enteric Virus Surveillance System (NREVSS) is posted with a one-week lag to ensure data completeness, week 40 data will be posted in the MMWR Week 41 Seasonal Influenza Activity Summary.
- No pediatric influenza-associated mortalities have been reported so far during the 2022-2023 influenza season (through 10/8/2022).
- No novel influenza A virus infections have been reported so far during the 2022-2023 influenza season (through 10/8/2022).
- Incidence of confirmed influenza-associated hospitalizations in 2022-2023 season = 20 (through 10/8/2022).

### HHS Regional and National Surveillance Data\*:

National and regional-level influenza surveillance data from the Centers for Disease Control and Prevention (CDC) are reported one week later than Ohio state-level data. National and regional-level data for MMWR week 40 will be available in the MMWR week 41 Ohio Seasonal Influenza Activity Summary.

\*National-level and regional-level data are reported one week later than Ohio state-level.

### A Weekly Influenza Surveillance Report Prepared by the Influenza Division

#### Outpatient Respiratory Illness Activity Map Determined by Data Reported to ILINet

This system monitors visits for respiratory illness that includes fever plus a cough or sore throat, also referred to as ILI, not laboratory confirmed influenza and may capture patient visits due to other respiratory pathogens that cause similar symptoms.

2022-23 Influenza Season Week 40 ending Oct 08, 2022

## **Data Sources:**

- 1. Emergency Department Visits (EpiCenter):** EpiCenter collects emergency department chief complaint data from hospitals and urgent care facilities across Medina County and classifies them into symptom and syndrome categories. Rates for chief complaints regarding fever + ILI and other symptoms commonly detected during the flu season are analyzed.
- 2. Influenza-Associated Hospitalizations (ODRS):** Influenza-associated hospitalizations and novel influenza infections are reported by the Medina County Health Department and hospitals using the Ohio Disease Reporting System (ODRS). Hospitalizations can be used as an indicator of the severity of illness during a particular influenza season. This condition became reportable in January 2009.
- 3. National Retail Data Monitor (NRDM):** NRDM collects over-the-counter medication sales at drug stores located within Medina County. Medication sales are broken down by adult and pediatric.
